This sheet inspected
, Engineer.
PROTESTED by Winnemucca Water & Light Co., March 11th, 1913.
APPROVAL OF STATE ENGINEER
This is to certify that I have examined the foregoing appli-
DENY cation, and do hereby grant the same, subject to the following lim-
itations and conditions:
This application is DENIED for the reason and on the ground that the
normal flow of the creek is already appropriated and is insufficient to take care of the existing rights. That the flood waters are used
in part some years and wholly in other years on the ranches now
situated on the source. That a permit was issued for such excess waters as were not used by the present rights and such permit was
abandoned; it being impracticable to make use of the small amount of
unused waters. The unappropriated waters of Thomas Creek in in-
termittent years is not subject to appropriation; it being considered detrimental to the public welfare to permit its appropriation. The amount of water to be appropriated shall be limited to the
amount which can be applied to beneficial use, and not to exceed
XXXXXXXXX cubic feet per second.
Actual construction work shall begin on or before <u>xxxxxxxxxxxxxx</u>
Proof of commencement of work shall be filed before XXXXXXXXXXXXXXX
Work must be prosecuted with reasonable diligence and be completed
on or before XXXXXXXXXXXXXX
Application of water to beneficial use shall be made on or before
LXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXX
Proof of the application of water to beneficial use must be filed
with the State Engineer on or before XXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXX
WITNESS MY HAND AND SEAL this 27th. day of August, 1913.

State Engineer.
